- Model 110 Full-Size Action
- Match Chamber in 22 LR
- 1-4 lbs. User Adjustable Competition AccuTrigger
- Front Locking Bolthead
- Threaded Bolt Handle – 5/16”x24
- MDT Gen 2 ACC Premier Chassis
- L3i Detachable AICS Style Magazine (10 Rounds)
- Interchangeable Front Baffle for Bolt Throw Length - 308 WIN Length or 22 LR Length
- One Piece 20 MOA Rail
- 1/2”x28 Threaded Barrels

The all-new 110 RF Elite Precision brings the 22LR into a full-size platform. Built on the proven 110 action, this new model is designed to perform. Like

its big brother, all 110 RF models will be capable of using stocks or accessories intended for a Savage 110 short-action rifle. The bolt has been designed with the same headspace control that the 110 is known for. The unique front baffle allows the user to interchange the length of bolt throw. It can be configured for a standard 308 Win length throw or shortened to the 22LR length throw. This enables the user to cycle the bolt faster with the 22LR length throw or use it to train with the full-length bolt throw just like a 308 Win. Changing the length of the bolt throw can be completed in under 30 seconds and can be swapped at any time. Feeding from an L3i 10-round AICS-style magazine, the 110 RF’s match-grade chamber will ensure optimum accuracy shot after shot.
