SAVAGE®

B SERIES FV-SR

Features:

- 10-round rotary magazine
- Button-rifled, suppressor-ready heavy barrel
- Modern, ergonomic composite stock
- Top tang safety
- Drilled and tapped for scope mounts

Meet a bolt-action rimfire built for the modern age—and for the shooter's body. The B Series FV-SR uses an ergonomically designed stock, higher comb, top tang safety and target style, vertical pistol grip to allow shooters to hold the rifle in a more natural position that puts less pressure on the wrist. Its heavy, button-rifled barrel is suppressor-ready and fed by a 10-round rotary magazine. The adjustable AccuTrigger™ gets the most accuracy from the precision platform.
