The industry’s safest micro rimfire has come of age. The Rascal Target is built for accuracy and adaptability, thanks to a precision hardwood stock, heavy 16 1/8-inch barrel, one-piece Picatinny rail and threaded (1/2-28) muzzle. Like the original Rascal, the single-shot rifle cocks by lifting the bolt and unloads easily—without pulling the trigger. The design also builds

superior shooting skills thanks to full-size rifle features, including Savage’s user-adjustable AccuTrigger™ system. The platform offers far better safety, functionality and accuracy than competing designs.
